Parenting is tough, even more so if you're a parent whose child has emotional and behavioral challenges or other mental health issues, substance abuse or has court involvement.

To help you fine-tune your skills from a common sense approach, the Family Advocacy Network (FAN) is offering COMMON SENSE PARENTING[®] (CSP), the evidence based parent skills building curriculum originally developed by the renown Boys Town.

By the end of this 6-session series, participants will have learned techniques to address issues of communication, discipline, decision-making, relationships, self-control and school success for families in all situations.

Certificates of Completion will be issued , upon meeting class requirements at graduation. CSP generally meets standards of parent skills building for court compliance with DJJ, DSS and Truancy Courts. Consult with your court counselor for confirmation if you are court involved.

CSP is for adults only. Childcare is not provided.

This class is for parents of children ages 6-17 years of age.

Class size is limited to 6 participants.
